

BILL SURVIVES
THIRD READINGHouse of Lords Acts Favorably
on Veto Measure.

REVOLT FAILS TO DEVELOP

Threats of Extremist Peers to Throw Out the Bill and Precipitate a Crisis Proved a Bluff and It Passed Without Division—Commons Will Reject Amendments and the Upper House Is Expected to Yield.

London, July 21.—The house of lords passed the third reading of the parliament bill, otherwise known as the veto bill, without division, after only three hours' debate. The revolt of the insurgent peers failed to materialize. All threats of the extremist lords to throw out the bill at this stage and precipitate a crisis proved a bluff. One solitary peer, Baron Stanmore, raised his voice to demand a vote, but found no support.

Lord Morley, for the government, and Lord Lansdowne, leader of the opposition, repeated some familiar arguments for and against the measure. Lord Halsbury, leader of the extremists, threatened a fight if the house of commons rejects the amendments.

The future of the measure may be predicted with reasonable certainty. Premier Asquith in the commons on Monday will move the rejection of the lords' amendments en bloc. This done the prime minister will announce that if the lords persist there will be no course open for him but to tender the king certain advice which will insure the passage of the bill. Every one will understand that this means the creation of Liberal peers.

The house of lords will meet Wednesday or Thursday and Lord Lansdowne will move the acceptance of the bill, predicting its repeal as soon as the extremists return to office. If the extremists rally around Halsbury and vote for the rejection of the bill Lord Lansdowne is expected to summon his followers to vote for it. It is anticipated that Halsbury will find that there are not more than fifty, perhaps not more than a score, to make the last stand and the greatest constitutional revolution in almost a century will be accomplished.

Three considerations have impelled the peers to swallow this bitter medicine—a desire to save their own caste from cheapening, to shield the king from an embarrassing position and to prevent the immediate enactment of extreme radical measures, such as home rule and the disestablishment of the Welsh church.

What the ultimate effect of the humiliation will be on the Unionist parties with the future. That far seeing leadership might have prevented it none denies. Who will be the final scapegoats is the question.

INDICT THE MEN, NOT TRUST

Government's New Policy in Wall Paper Case.

Cleveland, July 21.—According to United States District Attorney U. G. Demman, who conducted the federal grand jury investigation resulting in the indictment of four wall paper jobbers charged with combination and conspiracy in restraint of trade in violation of the Sherman anti-trust law, the cases mark a departure in the policy of the government, which for the first time in similar cases brought the officers of the accused companies, instead of the companies themselves, before the bar of justice.

Prison sentences of one year stars the four indicted men in the face if they are found guilty. Bail in each case will be fixed at \$5,000. The cases will be called in the October term of court.

BRANDEIS ALASKAN PROBER

Counsel for Committee in Controller Bay Inquiry.

Washington, July 21.—Louis D. Brandeis of Boston, who was ex-forester Pinchot's counsel in the Ballinger-Pinchot case and other congressional inquiries, has been chosen to act as counsel for the house committee investigating Controller bay, Alaska, land claims.

Assistant Forester Adams, the only witness before the committee, said he believed the executive order of Oct. 28, 1910, withdrawing the Controller bay lands from the public domain was made available for the press in the usual way.

John W. Gates Recovering.

Paris July 21.—John W. Gates, whose illness it was once feared would terminate fatally, appears to have turned the corner. Steady improvement has been noted in his condition for several days. The physicians think that he will continue to improve slowly.

Mangled by a Binder.

Barnesville, Minn., July 21.—Joe Nadatoski, a farmer living seven miles west of this city, met a frightful death while harvesting in his field. Nadatoski had climbed down in front of the binder to adjust the blades when the team became frightened and started, throwing him onto the blades and mangle him under the binder. He leaves a widow and five children.

INSURANCE MAN
GOT AFFIDAVITS

Worked Two Weeks Without Salary in Lorimer Case.

ALDRICH TELLS HIS STORY

Former Rhode Island Senator Appears Before Committee and Declares That He Told Edward Hines the Candidacy of Senator Lorimer Was Not Objectionable to Either President Taft or Himself.

Washington, July 21.—Aside from the story of the administration's attitude toward the election of Senator Lorimer, as told by former Senator Nelson W. Aldrich of Rhode Island, the activities of R. J. Shields of Superior, Wis., an insurance agent, in collecting affidavits from witnesses in the investigation featured the senate committee hearing.

C. F. Wiehe, secretary of the Edward Hines Lumber company, said Shields had collected the affidavits of witnesses who testified that Wiehe did not remark to William Burgess on the Winnipeg flyer last March that he had subscribed \$10,000 to a Lorimer election fund. Wiehe stated that no arrangement had been made to pay Shields anything, but that he had asked him to collect affidavits "just as I would ask a senator to hand me a fan."

He said that Shields spent two weeks traveling in Kansas, Iowa, Northwest Canada and Washington to locate the witnesses. The witness said that Shields had drawn upon the lumber company for his expenses but he did not know how much they were. He offered to furnish the information later.

For an hour Wiehe was questioned as to whether Shields represented the Hines company in Wisconsin politics and how it happened that Shields would leave his own business to hunt up evidence for others without some kind of an arrangement about compensation.

Expected to Pay Bill. Wiehe knew nothing about Shields' political activities for the company but called attention repeatedly to the statement that Shields got about \$4,000 out of the Hines company as insurance payments. He said he expected to pay Shields if he presented a bill.

Wiehe said he had had Shields come to Chicago about ten days ago in order to ask him if he had had much trouble in locating the witnesses. Wiehe denied that he wanted more information as to what men would testify, because, he explained, he had their affidavits. Wiehe said he could assist the committee in locating Shields.

In cross-examination Attorney Elbridge Haney, for Senator Lorimer, asked Aldrich, who had contradicted the statement of Edward Hines and the Rhode Island senator and president had been anxious to have Lorimer elected, if he had not had many conferences with Hines about the time the Illinois legislature was sitting.

"Perhaps, but at none of them, except the ones I have told about, did we speak about the Illinois senatorship," responded the witness.

Mr. Aldrich said that he understood that Hines would use the information he sought and would tell members of the legislature that Lorimer's candidacy was not objectionable to the president or himself.

Senator Kenyon asked if the president manifested any disposition in favor of Lorimer's election. Aldrich said that he did not care to go into conversations he had with the president and that his testimony as to what he told Hines explained the president's attitude fully.

INQUIRY TO HAVE WIDE RANGE

Whole Administration of Pure Food Law Will Be Included.

Washington, July 21.—Belief that one important outcome of the inquiry into charges against Dr. Wiley will be a thorough investigation of the department of agriculture is widespread in this city. Close friends of the president for several days have been saying that it would be a happy solution of the difficulty if Secretary Wilson, who now holds the record for length of cabinet service, should see fit to resign. There is no hint that Wilson is thinking of doing this, nor that Taft is at present thinking of asking for his resignation, but that the resignation would be welcome at the White House probably is true.

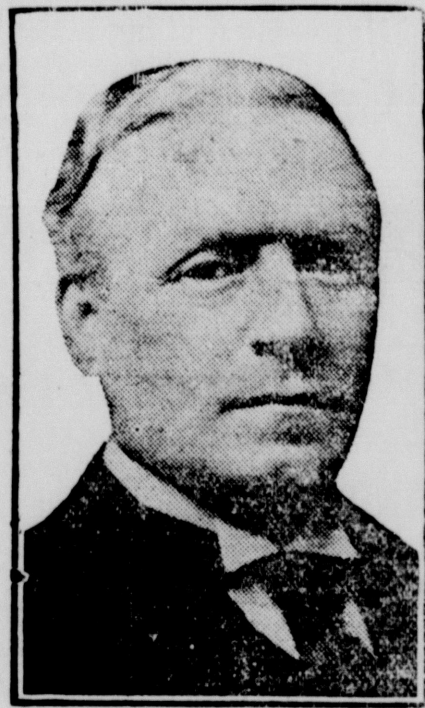

FREIGHT TRAIN JUMPS TRACK

Four Men Killed in a Wreck on the Pittsburg and Western.

Pittsburg, July 21.—Four men were killed, two injured and another is unaccounted for as a result of the wreck of a fast freight train on the Pittsburg and Western division of the Baltimore and Ohio railroad at Bryant Station, near here. The dead are Joseph P. O'Connell, Johnstown, Pa.; Charles Iverson, Chicago, Ill.; Matthew J. O'Neale, Pittsburg, and F. M. Cunningham, Connellsville, Pa.

PREMIER ASQUITH.

Will Move Rejection of Lords' Amendments.

ASKS HALF MILLION LOAN

Grant Among Officials Bankrupts Lawrence, Mass.

Boston, July 21.—As the result of graft in municipal offices the city of Lawrence was forced to ask Governor Foss for the loan of \$500,000 for ten years to meet expenses. During that time the city is to be ruled by a commission appointed by the governor and over whom the citizens of the city will have no control.

M. T. White, former mayor of Lawrence, is now in jail, convicted of complicity in graft cases. It was found that the city was bankrupt. Hundreds of city employees have been discharged, as there was no money to pay them.

THREE HIGHWAYMEN
GO THROUGH TRAIN

Hold Up the North Coast Limited Near Buffalo, N. D.

Fargo, N.D., July 21.—Three masked highwaymen held up the North Coast limited No. 2 on the Northern Pacific road near Buffalo, N. D., searched the passengers, shot and wounded the engineer, E. D. Olson of Fargo, and escaped with cash and valuables estimated at between \$500 and \$1,000.

The North Coast limited, eastbound, stopped at Highbridge, between Valley City and Buffalo. The three men, armed and wearing masks, entered a day coach. One held the train crew at bay, while the others lined up the passengers and took their valuables. The sleepers and dining car also were invaded and few passengers escaped the search.

Completing their work in the train the robbers crawled over the baggage car to the tender of the locomotive. They ordered the engineer, Olson, to stop the train. He refused. Two shots were fired into the engine cab. One bullet inflicted a flesh wound in the side of the engineer. The other went wild. The engineer stopped the train and the highwaymen dropped off the tender and fled.

One of the robbers is believed to have been wounded when he was fired upon by A. Belgard of St. Paul, Pullman conductor.

With the United States marshal and his deputies, sheriffs, posses and the local police scouring the country in automobiles Fargo is the center of activities looking to the capture of the bandits.

Upon the announcement of the officials of the road \$1,000 reward for the capture of each of the bandits interested in the chase is paramount. Hundreds of men both in organized posses and as individuals are joining in the hunt.

ASKS REMSEN BOARD EXPENSE

House Committee Prepares for Wiley Case Investigation.

Washington, July 21.—In connection with the charges against Dr. Harvey W. Wiley, chief of the chemistry bureau, the house committee on agricultural department expenditures called on the secretary of agriculture for complete information regarding the cost and the work of the Remsen board experts on pure food matters.

The Remsen board was appointed by President Roosevelt especially to decide the famous benzene case of soda. Dr. Wiley held that it was injurious to health and that its use in food preparations and preservation should not be allowed.

The Remsen board held that when used in certain small quantities benzene of soda could not be considered harmful.

SMUGGLER IS FINED \$25,000

New York Importer Pleads Guilty to Defrauding Government.

New York, July 21.—Judge Archbald in the United States circuit court imposed a fine of \$25,000 on Hugo Rosenberg, one of the members of the firm of Rosenberg Bros., dry goods importers of Fifth avenue, when he pleaded guilty to four indictments charging him with defrauding the government out of customs duties.

HARD TO DRAW
PARTY LINES.

Senators Trying to Tell What Is What in Politics.

SPLIT ON RECIPROCITY BILL.

Bailey and Heyburn Use Cowboy Vernacular in Colloquy About Republican Mutineers—"Dog Day" in the House Leads to Long Debate on Rights of Canine Pets.

By ARTHUR W. DUNN.

Washington, July 21.—[Special.]—"What is a Republican?" and "Who are Democrats?" were questions which have agitated members of the senate for a long time. On several days the debate has been confined largely to settling these disturbing questions, with the result that more doubt than ever exists. One day when the subject was uppermost Senator Nelson asked Heyburn how the head of the Republican party could be educated and brought back into the Republican fold.

"Who is the leader and head of the Republican party?" asked the Idaho senator.

The talk also turned upon the question as to whether the reciprocity bill, supported by nearly all the Democrats and upon which the Republicans were nearly equally divided, but, having been proposed by a Republican president, was a Republican or Democratic measure. And that question remains unsettled.

Cattle Vernacular. A little later Bailey and Heyburn had a colloquy over mutiny in the Republican party, in which cowboy terms were used. "Mavericks" was Heyburn's term for the Republicans who had strayed from his idea of Republicanism. Bailey suggested a "roundup" at the White House, when all might be "branded."

Vice President Sherman has done something that none of his predecessors was ever known to do. He sits and reads newspapers while senators are debating. Why no senator has called attention to this innovation is strange, for it certainly encroaches on senatorial dignity.

"Dog Days" in the House.

There are certain days in summer designated "dog days," and everybody understands why. Perhaps that accounts for a "dog day" in the house of representatives. Now we all know that while the senate has been debating at great length the various tariff bills the house has been adjourning from time to time, doing absolutely nothing to the best of its ability. Then came a day when a tariff bill was reported and passed which everybody wanted. It provided that where animals strayed or were taken across the border they might be returned without the payment of duty.

That was all right until Fitzgerald of New York raised the question of a society Pomeranian which had been compelled to pay duty at the New York custom house, and then there was a regular dog discussion of several hours.

Took a Wide Range.

Of course there was the customary reference to "yellow dogs," "brindle pups," and suggestions as to sausage and frankfurters. Payne and Fitzgerald had a pleasant wrangle about the defense of the dog, and Hughes of New Jersey chimed in a few words.

Uncle Joe Cannon, who never feels quite satisfied unless he has said something, got started and had to have his time extended several times before he concluded his say. Sims of Tennessee, without reference to the dog discussion, caused the reading of a patriotic speech of a grandson of former Speaker Bell, and Cannon pointed out that this grandson was a railroad attorney, which rattled Sims and brought Roddenberry of Georgia forward with a defense of Sims and incidentally returned the discussion to dogs. He demanded that the coon dog, the possum dog and the rabbit dog should be placed on an equality with the high bred dogs of the idle rich.

When Norris Got "In Bad."

It was Norris of Nebraska who told the most interesting dog story. He had been invited to address an audience and found it composed of young men of Washington. He urged manhood and marriage. He said he had seen a wealthy woman neglect her child to take care of a poodle dog and designated the place so definitely that she was identified. His speech went over the country, and his mail was filled with letters of denunciation from owners of poodle dogs.

Norris said that he hoped the pending bill favored poodle dogs, as it gave him an opportunity of going on record as doing something for them in order to "avert the catastrophe which I fear is about to fall on my troubled head from the avenging wrath of the owners of these animals."

All of the discussion bears out the remark of John Sharp Williams when minority leader in the house. "We are boys grown up," he remarked after a few hours of frivolous talk.

Has a Literary Son.

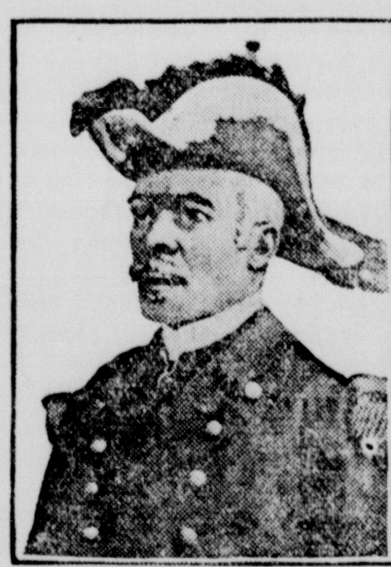

The new minority leader has a literary son. Young James Mann has written several articles and stories which have been accepted by the magazines. He cares more for literature than for politics.

Persevering.

Patient—Say, that isn't the tooth I want pulled. Dentist—Never mind. I'm coming to it.—Boston Transcript.

PRESIDENT SIMON.

Flees When Rebels Take Cape Haitien.

REBELS TAKE CAPE HAITIEN

President Simon and Troops Depart for Port au Prince.

Cape Haitien, Hayti, July 21.—Cape Haitien is in the hands of the revolutionists and the sole protection of Americans and other foreigners at this port is an American yacht which arrived here.

The United States gunboat Petrel sailed from here several hours previous to the arrival of the yacht, leaving American interests unprotected and when the yacht came into the harbor, her owner, Mr. Dick, found the town in a state of semi-anarchy.

The insurgents were rapidly approaching and President Simon and his troops had left for Port au Prince.

ENGLISH DOCKMEN
MAY RENEW STRIKE

Becoming Impatient at the Delay in Negotiations.

London, July 21.—A recrudescence of the shipping and dock strikes is threatened.

The strike at Cardiff resulted in further rioting. Attacks were made upon the Chinese seamen. Bands of strikers marched through all parts of the city, taking the police completely by surprise. They wrecked all the Chinese laundries, scattering and burning their contents.

The London dockers are becoming impatient at the delay of the prolonged negotiations for a settlement of their wage dispute. They threaten to renew the strike.

Strikes are also impending at other ports over the refusal of the ship owners to recognize the union.

Secretary Bell of the union, speaking at Sunderland, said that unless the union was recognized the whole shipping of the northeast coast would be tied up next week.

MAINE IMBEDDED IN MUD

Engineers Start Dissecting Masses of Metal in Wreck.

Havana, July 21.—All the water in the cofferdam surrounding the wreck has been removed, showing the wreck imbedded in the mud from an estimated depth of thirty-seven feet around the afterpart of the vessel to an indeterminate depth. That portion of the ship immediately forward of the central superstructure, which was demolished, has completely disappeared, except for some jagged pieces of rusted steel protruding above the slime.

The engineers intend to begin the work of drawing out the soft mud by suction, but they probably soon will be compelled to resort to the slow process of digging and hoisting the material out in buckets. Simultaneously they will begin the work of dissecting the great confused masses of metal.

DAMAGES FOR LAND FRAUDS

Government Would Recover \$2,500,000 From Smelting Company.

Denver, July 21.—Suit for \$2,500,000 damages for alleged conspiracy and fraud in acquiring 2,415 acres in the Trinidad coal fields in Southern Colorado was filed in the federal court against the American Smelting and Refining company.

In order that innocent purchasers of the lands may not suffer the action is brought in law for damages and not in equity to set aside the patents. The suit is the culmination of several years' investigation by special land agents.

It is recited that the land was acquired by means of sixteen dummy citizenry, filings thereon being made in July, 1902. The complaint alleges that Samuel R. Richie of Denver furnished the money with which the lands were bought, he being cashier of the American Smelting and Refining company at the time when patent lands were conveyed to A. S. Booth, S. R. Richie, Joseph W. Huty and Henry A. Dube, who, in turn, in August, 1903, deeded the property to Thomas Tacher and William N. Barnum of New York city, attorney for the defendant company.

As It Should Be.

Who has not noticed that it is usually the black sheep of the family who is fleeced?—London Mail.

HAS MONOPOLY
ON IRON ORESKILLED IN RELIABILITY RUN
Lewis Strang's Machine Goes Over Embankment in Wisconsin.

Milwaukee, July 21.—Lewis Strang, a well known automobile racing driver, who has driven cars in various sections of the United States, was instantly killed near Blue River, Wis., a village about twenty miles from Richland Center, while piloting the machine of the technical committee on the Wisconsin Automobile association's annual reliability run.

The tour was from La Crosse to Lancaster, a distance of about 128 miles.

The car was running at only about four miles an hour, when a farmer was seen ahead going in the same direction. Strang turned aside, the bank suddenly gave way and his car slid down the embankment, turning turtle, and Strang, reluctant to jump, went under to his death. The tank was not over five feet high.

Former Police Chief Sentenced.

Seattle, July 21.—Former Chief of Police Wapensteen, convicted of accepting a bribe for permitting the operation of resorts during the Gill administration, was sentenced to not less than three nor more than ten years in the state penitentiary.

River Steamer Sunk.

Burlington, Ia., July 21.—The steamer Dubuque, with 100 passengers on board, struck a snag while en route from St. Louis to Burlington and sank in four feet of water. Coolness of the crew kept the passengers from panic and no one was injured.

Gems Worth \$4,500 Stolen.

Kansas City, July 21.—Two robbers stole diamonds worth \$4,500 from the jewelry store of Benjamin Franklin and, in seeking to escape, fired a shot that fatally wounded B. A. Seitz, a bystander. Joseph Brown, one of the robbers, was captured.

Chairman Stanley Says Trust Is In Full Control.

FLATLY REFUSES TO TESTIFY

Herbert Knox Smith, Commissioner of Corporations, Acting on the Attorney General's interpretation of the Law, Declines to Give Information in His Possession Without the President's Authority.

Washington, July 21.—The United States Steel corporation, in obtaining the Tennessee Coal and Iron company and its Southern ore lands, "cinched" its monopoly of the ores of the American continent and tied up available fields for independent concerns, declared Chairman Stanley of the house steel trust investigating committee at the hearing.

Mr. Stanley made the surprising admission that he had discovered from his own investigation that the United States Steel corporation has no monopoly of coking coal, but, addressing his remarks particularly to Richard A. Linbury, counsel for the steel corporation, he said that if he could say the same of the ore and transportation facilities controlled by the trust he would frankly do so.

The committee ineffectually sought light from Herbert Knox Smith, commissioner of corporations, whose bureau has been investigating the steel corporation since 1906 and has made public only a part of its report. The commissioner, standing on the attorney general's interpretation of the law that no information could be made public without the president's authority, flatly refused to give the committee facts contained in a report not yet completed, relating particularly to cost sheets furnished by the steel corporation. He agreed that when the report is ready he would urge the president to make it public as soon as possible.

Reads Judge Gary's Speech.

Chairman Stanley read a speech of Judge Elbert H. Gary, chairman of the board of directors of the steel corporation, made to the board at a meeting in 1906 relating to the government's investigation. In this Mr. Gary said:

"Our finance committee has been in close touch with this matter all the time. We have been in frequent and almost immediate touch with Mr. Garfield, or more or less with the president himself in regard to these matters. Up to date they have made no complaint of us whatever, but we do not know any better than you do what may be the future. We are trying to be frank and accommodating to the department and we suppose we have an understanding that we will not be unnecessarily injured and that we will not wrongfully be charged without having an opportunity to show the facts."

Mr. Smith said he knew nothing about this matter.

Mr. Stanley referred to what he termed the "act of God" to relieve the independents in the discovery of self-fluoding ores in the South, which developed the open hearth system and opened the way for competition with the Bessemer ores of the Superior region controlled by the trust. He said 80 per cent of the open hearth ores were controlled by the Tennessee Coal and Iron company.

\$4,000 FROM WOMAN ON TRAIN

Bag of Diamonds Stolen From Inside Sleeper's Nightgown.

Colorado Springs, Colo., July 21.—While asleep in a berth on a Santa Fe train bound for this city Mrs. S. G. Seymour of Kansas City was robbed of a bag of diamonds worth \$4,000 and nearly \$100 in cash.

As a precaution against thieves Mrs. Seymour, upon retiring, placed the charms bag containing the jewels inside her nightgown. The thief took the bag from its hiding place without awakening Mrs. Seymour. She did not discover the theft until the train had reached Fort Dodge.

The stolen jewelry includes rings, a sunburst and brooches.

Two Miners Killed.

Bessemer, Mich., July 19.—Two men were killed when a 3½ ton carrying twelve men started to fall in the Anvil mine here. Ten were saved by the prompt action of the emergency brakes. When part of the shaft the cable broke, after Posilowski and John J. Givens, fell 100 feet to the bottom.

Kills Wife and Himself.

Missoula, Mont., July 20.—Loren H. Hipsher shot and killed his wife and then shot himself fatally in the head. The tragedy occurred in a music store where Mrs. Hipsher was employed. The couple had recently separated following reverses in Hipsher's business ventures.

Joseph Tucker Seriously Ill.

Chicago, July 21.—Joseph Tucker, chairman of the Central Freight association for the last fifteen years and one of the most widely known railroad officials in the country, is reported to be seriously ill here.

BILL SURVIVES THIRD READING

House of Lords Acts Favorably
on Veto Measure.

REVOLT FAILS TO DEVELOP

Threats of Extremist Peers to Throw
Out the Bill and Precipitate a Crisis
Proved a Bluff and It Passed With-
out Division—Commons Will Reject
Amendments and the Upper House Is
Expected to Yield.

London, July 21.—The house of
lords passed the third reading of the
parliament bill, otherwise known as
the veto bill, without division, after
only three hours' debate. The revolt
of the insurgent peers failed to ma-
terialize. All threats of the extremist
lords to throw out the bill at this
stage and precipitate a crisis proved a
bluff. One solitary peer, Baron Stan-
more, raised his voice to demand a
vote, but found no support.

Lord Morley, for the government,
and Lord Lansdowne, leader of the
opposition, repeated some familiar ar-
guments for and against the measure.
Lord Halsbury, leader of the extreme
right, threatened a fight if the house of
commons rejects the amendments.

The future of the measure may be
predicted with reasonable certainty.
Premier Asquith in the commons on
Monday will move the rejection of
the lords' amendments en bloc. This
done the prime minister will announce
that if the lords persist there will be
no course open for him but to tender
the king certain advice which will in-
sure the passage of the bill. Every
one will understand that this means
the creation of Liberal peers.

The house of lords will meet
Wednesday or Thursday and Lord
Lansdowne will move the acceptance
of the bill, predicting its repeal as
soon as the extremists return to office.
If the extremists rally around Halsbury
and vote for the rejection of the bill
Lord Lansdowne is expected to sum-
mon his followers to vote for it. It is
anticipated that Halsbury will find that
there are not more than fifty, perhaps
not more than a score, to make the
last stand and the greatest constitu-
tional revolution in almost a century
will be accomplished.

Three considerations have impelled
the peers to swallow this bitter medi-
cine—a desire to save their own seats
from cheapening, to shield the king
from an embarrassing position and to
prevent the immediate enactment of
extreme radical measures, such as
home rule and the disestablishment
of the Welsh church.

What the ultimate effect of the hu-
miliation will be on the Unionist party
lies with the future. That far seeing
leadership might have prevented it
none denies. Who will be the final
scapegoats is the question.

INDICT THE MEN, NOT TRUST

Government's New Policy in Wall
Paper Case.

Cleveland, July 21.—According to
United States District Attorney U. G.
Denman, who conducted the federal
grand jury investigation resulting in
the indictment of four wall paper job-
bers charged with combination and
conspiracy in restraint of trade in vio-
lation of the Sherman anti-trust law,
the cases mark a departure in the
policy of the government, which for
the first time in similar cases brought
the officers of the accused companies,
instead of the companies themselves,
before the bar of justice.

Prison sentences of one year stars
the four indicted men in the face of
the fact they are found guilty. Bail in each
case will be fixed at \$5,000. The cases
will be called in the October term of
court.

BRANDEIS ALASKAN PROBER

Counsel for Committee in Controller
Bay Inquiry.

Washington, July 21.—Louis D.
Brandeis of Boston, who was ex-Pro-
fessor Pinchot's counsel in the Ballinger-
Pinchot case and other congressional
inquiries, has been chosen to act
as counsel for the house commit-
tee investigating Controller Bay, Alas-
ka, land claims.

Assistant Forester Adams, the only
witness before the committee, said he
believed the executive order of Oct.
28, 1910, withdrawing the Controller
bay lands from the public domain
was made available for the press in
the usual way.

John W. Gates Recovering.

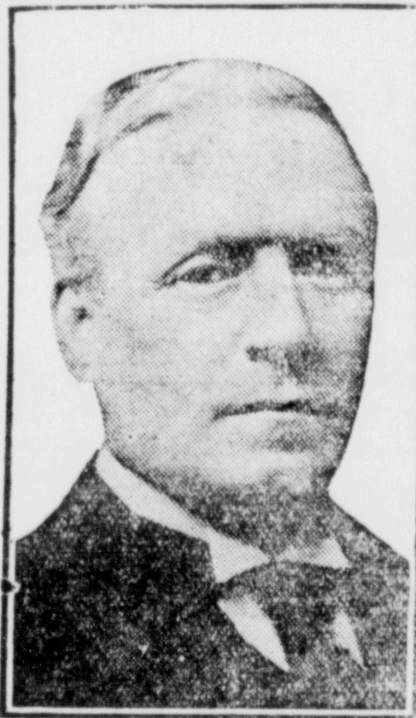

Paris, July 21.—John W. Gates,
whose illness it was once feared
would terminate fatally, appears to
have turned the corner. Steady im-
provement has been noted in his con-
dition for several days. The physi-
cians think that he will continue to
improve slowly.

Mangled by a Binder.

Barnesville, Minn., July 21.—Joe Na-
dratoski, a farmer living seven miles
west of this city, met a frightful death
while harvesting in his field. Nadra-
toski had climbed down in front of
the binder to adjust the blades when
the team became frightened and start-
ed, throwing him onto the blades and
mangling him under the binder. He
leaves a widow and five children.

PREMIER ASQUITH.

Will Move Rejection
of Lords' Amendments.

ASKS HALF MILLION LOAN

Graft Among Officials Bankrupts Law-
rence, Mass.

Boston, July 21.—As the result of
graft in municipal offices the city of
Lawrence was forced to ask Governor
Foss for the loan of \$500,000 for ten
years to meet expenses. During that
time the city is to be ruled by a com-
mission appointed by the governor
and over whom the citizens of the city
will have no control.

THREE HIGHWAYMEN

GO THROUGH TRAIN

Hold Up the North Coast Limited
Near Buffalo, N. D.

Fargo, N. D., July 21.—Three masked
highwaymen held up the North Coast
limited No. 2 on the Northern Pacific
road near Buffalo, N. D., searched the
passengers, shot and wounded the en-
gineer, E. D. Olson of Fargo, and es-
caped with cash and valuables esti-
mated at between \$500 and \$1,000.

The North Coast limited, eastbound,
stopped at Highbridge, between Valley
City and Buffalo. The three men,
armed and wearing masks, entered a
day coach. One held the train crew
at bay, while the others lined up the
passengers and took their valuables.
The sleepers and dining car also were
invaded and few passengers escaped the
search.

Completing their work in the train
the robbers crawled over the baggage
car to the tender of the locomotive.
They ordered the engineer, Olson, to
stop the train. He refused. Two shots
were fired into the engine cab. One
bullet inflicted a flesh wound in the
side of the engineer. The other went
wild. The engineer stopped the train
and the highwaymen dropped off the
tender and fled.

One of the robbers is believed to
have been wounded when he was fired
upon by A. Belgard of St. Paul, Pull-
man conductor.

With the United States marshal
and his deputies, sheriffs, posses and
the local police scouring the country
in automobiles Fargo is the center of
activities looking to the capture of
the bandits.

Upon the announcement of the of-
ficials of the road \$1,000 reward for the
capture of each of the bandits inter-
est in the chase is paramount. Hun-
dreds of men both in organized posses
and as individuals are joining in the
hunt.

ASKS REMSEN BOARD EXPENSE

House Committee Prepares for Wiley
Case Investigation.

Washington, July 21.—In connection
with the charges against Dr. Harvey
W. Wiley, chief of the chemistry bu-
reau, the house committee on agri-
cultural department expenditures
called on the secretary of agriculture
for complete information regarding
the cost and the work of the Remsen
board experts on pure food matters.

The Remsen board was appointed
by President Roosevelt especially to
decide the famous benzene of soda
case. Dr. Wiley held that it was in-
jurious to health and that its use in
food preparations and preservation
should not be allowed.

The Remsen board held that when
used in certain small quantities ben-
zoate of soda could not be considered
harmful.

SMUGGLER IS FINED \$25,000

New York Importer Pleads Guilty to
Defrauding Government.

New York, July 21.—Judge Archbold
in the United States circuit court im-
posed a fine of \$25,000 on Hugo Rosen-
berg, one of the members of the firm
of Rosenberg Bros., dry goods import-
ers of Fifth avenue, when he pleaded
guilty to four indictments charging
him with defrauding the government
out of customs duties.

HARD TO DRAW PARTY LINES.

Senators Trying to Tell What
Is What in Politics.

SPLIT ON RECIPROCITY BILL.

Bailey and Heyburn Use Cowboy Ver-
nacular in Colloquy About Repub-
lican Mutineers—"Dog Day" in the
House Leads to Long Debate on
Rights of Canine Pets.

By ARTHUR W. DUNN.

Washington, July 21.—(Special.)—
"What is a Republican?" and "Who
are Democrats?" were questions
which have agitated members of the
senate for a long time. On several
days the debate has been confined
largely to settling these disturbing
questions, with the result that more
doubt than ever exists. One day
when the subject was uppermost Sen-
ator Nelson asked Heyburn how the
head of the Republican party could
be educated and brought back into the
Republican fold.

"Who is the leader and head of the
Republican party?" asked the Idaho
senator.

The talk also turned upon the ques-
tion as to whether the reciprocity bill,
supported by nearly all the Demo-
crats and upon which the Republicans
were nearly equally divided, but hav-
ing been proposed by a Republican
president, was a Republican or Demo-
cratic measure. And that question re-
mains unsettled.

A little later Bailey and Heyburn
had a colloquy over mutiny in the
Republican party, in which cowboy
terms were used. "Mavericks" was
Heyburn's term for the Republicans
who had strayed from his idea of Re-
publicanism. Bailey suggested a
"roundup" at the White House, when
all might be "branded."

Vice President Sherman has done
something that none of his predeces-
sors was ever known to do. He sits
and reads newspapers while senators
are debating. Why no senator has
called attention to this innovation is
strange, for it certainly encroaches on
senatorial dignity.

"Dog Days" in the House.

There are certain days in summer
designated "dog days," and everybody
understands why. Perhaps that ac-
counts for a "dog day" in the house
of representatives. Now we all know
that while the senate has been debat-
ing at great length the various tariff
bills the house has been adjourning
from time to time, doing absolutely
nothing to the best of its ability.

That came a day when a tariff bill
was reported and passed which every-
body wanted. It provided that where
animals strayed or were taken across
the border they might be returned
without the payment of duty.

That was all right until Fitzgerald
of New York raised the question of a
society Pomeranian which had been
compelled to pay duty at the New
York custom house, and then there
was a regular dog discussion of sev-
eral hours.

Took a Wide Range.

Of course there was the customary
reference to "yellow dogs," "brindle
pups," and suggestions as to sausage
and frankfurters. Payne and Fitz-
gerald had a pleasant wrangle about
the defense of the dog, and Hughes of
New Jersey clipped in a few words.

Uncle Joe Cannon, who never feels
quite satisfied unless he has said some-
thing, got started and had to have his
time extended several times before he
concluded his say. Sims of Tennessee,
without reference to the dog discussion,
caused the reading of a patriotic speech
of a grandson of former Speaker Bell,
and Cannon pointed out that this
grandson was a railroad attorney,
which rattled Sims and brought Rod-
denberry of Georgia forward with a
defense of Sims and incidentally re-
futed the discussion to dogs. He de-
clared that the coon dog, the possum
dog and the rabbit dog should be
placed on an equality with the high
bred dogs of the idle rich.

When Norris Got "In Bad."

It was Norris of Nebraska who told
the most interesting dog story. He
had been invited to address an au-
dience and found it composed of young
men of Washington. He urged man-
hood and marriage. He said he had
seen a wealthy woman neglect her
child to take care of a poodle dog and
designated the place so definitely that
she was identified. His speech went
over the country, and his mail was filled
with letters of denunciation from
owners of poodle dogs.

Norris said that he hoped the pend-
ing bill favored poodle dogs, as it gave
him an opportunity of going on record
as doing something for them in order
to avert the catastrophe which I fear
is about to fall on my troubled head
from the avenging wrath of the own-
ers of these animals.

All of the discussion bears out the
remark of John Sharp Williams when
minority leader in the house. "We are
boys grown up," he remarked after a
few hours of frivolous talk.

Has a Literary Son.

The new minority leader has a lit-
erary son. Young James Mann has
written several articles and stories
which have been accepted by the mag-
azines. He cares more for literature
than for politics.

Persevering.

Patient—Say, that isn't the tooth I
want pulled. Dentist—Never mind.
I'm coming to it.—Boston Transcript.

PRESIDENT SIMON.

Flees When Rebels
Take Cape Haitien.

REBELS TAKE CAPE HAITIEN

President Simon and Troops Depart
for Port au Prince.

Cape Haitien, Hayti, July 21.—Cape
Haitien is in the hands of the revolu-
tionists and the sole protection of
Americans and other foreigners at this
port is an American yacht which ar-
rived here.

The United States gunboat Petrel
sailed from here several hours previous
to the arrival of the yacht, leaving
American interests unprotected and
when the yacht came into the harbor,
her owner, Mr. Dick, found the town
in a state of semi-anarchy.

The insurgents were rapidly ap-
proaching and President Simon and
his troops had left for Port au Prince.

ENGLISH DOCKMEN MAY RENEW STRIKE

Becoming Impatient at the De-
lay in Negotiations.

London, July 21.—A recrudescence
of the shipping and dock strikes is
threatened.

The strike at Cardiff resulted in fur-
ther rioting. Attacks were made upon
the Chinese seamen. Bands of strik-
ers marched through all parts of the
city, taking the police completely by
surprise. They wrecked all the Chi-
nese laundries, scattering and burning
their contents.

The London dockers are becoming
impatient at the delay of the nego-
tiated negotiations for a settlement
of their wage dispute. They threaten
to renew the strike.

Strikes are also impending at other
ports over the refusal of the ship-
owners to recognize the union.

Secretary Bell of the union, speak-
ing at Sunderland, said that unless
the union was recognized the whole
shipping of the northeast coast would
be tied up next week.

MAINE IMBEDDED IN MUD

Engineers Start Dissecting Masses of
Metal in Wreck.

Havana, July 21.—All the water in
the cofferdam surrounding the Maine
has been removed, showing the wreck
imbedded in the mud from an esti-
mated depth of thirty-seven feet
around the afterpart of the vessel to
an indeterminate depth. That por-
tion of the ship immediately forward
of the central superstructure, which
was demolished, has completely dis-
appeared, except for some jagged
pieces of rusted steel protruding
above the slime.

The engineers intend to begin the
work of drawing out the soft mud by
suction, but they probably soon will
be compelled to resort to the slow
process of digging and hoisting the
material out in buckets. Simulta-
neously they will begin the work of
dissecting the great confused masses
of metal.

DAMAGES FOR LAND FRAUDS

Government Would Recover \$2,500,000
From Smelting Company.

Denver, July 21.—Suit for \$2,500,000
damages for alleged conspiracy and
fraud in acquiring 2,415 acres in the
Trinidad coal fields in Southern Colo-
rado was filed in the federal court
against the American Smelting and
Refining company.

In order that innocent purchasers
of the lands may not suffer the action
is brought in law for damages and not
in equity to set aside the patents. The
suit is the culmination of several
years' investigation by special land
agents.

It is recited that the land was ac-
quired by means of sixteen dummy
entrymen, filings thereon being made
in July, 1902. The complaint alleges
that Samuel R. Richie of Denver fur-
nished the money with which the lands
were bought, he being cashier of the
American Smelting and Refining com-
pany at the time when patent lands
were conveyed to A. S. Booth, S. R.
Richie, Joseph W. Hutton and Henry
A. Dubes, who, in turn, in August,
1903, deeded the property to Thomas
Tacher and William N. Barnum of
New York city, attorneys for the de-
fendant company.

As It Should Be.

Who has not noticed that it is usually
the black sheep of the family who is
deceitful?—London Mail.

HAS MONOPOLY ON IRON ORES

KILLED IN RELIABILITY RUN

Lewis Strang's Machine Goes Over
Embankment in Wisconsin.

Milwaukee, July 21.—Lewis Strang,
a well known automobile racing driv-
er, who has driven cars in various
sections of the United States, was in-
stantly killed near Blue River, Wis., a
village about twenty miles from Rich-
land Center, while piloting the ma-
chine of the technical committee on
the Wisconsin Automobile associa-
tion's annual reliability run.

The tour was from La Crosse to
Lancaster, a distance of about 128
miles.

The car was running at only about
four miles an hour, when a farmer
was seen ahead going in the same di-
rection. Strang turned aside, the
bank suddenly gave way and his car
slid down the embankment, turning
turtle, and Strang, reluctant to jump,
went under to his death. The bank
was not over five feet high.

Former Police Chief Sentenced.

Seattle, July 21.—Former Chief of
Police Wapenstein, convicted of ac-
cepting a bribe for permitting the op-
eration of resorts during the Gill ad-
ministration, was sentenced to not
less than three nor more than ten
years in the state penitentiary.

River Steamer Sunk.

Burlington, Ia., July 21.—The steam-
er Dubuque, with 100 passengers on
board, struck a snag while en route
from St. Louis to Burlington and sank
in four feet of water. Coolness of the
crew kept the passengers from panic
and no one was injured.

Gems Worth \$4,500 Stolen.

Kansas City, July 21.—Two robbers
stole diamonds worth \$4,500 from the
jewelry store of Benjamin Franklin
and, in seeking to escape, fired a shot
that fatally wounded B. A. Seitz, a by-
stander. Joseph Brown, one of the
robbers, was captured.

41½¢; barley, malting, 88¢ to \$1.07;
feed, 80¢ to 88¢; flax, \$2.15.

Chairman Stanley Says Trust Is In Full Control.

FLATLY REFUSES TO TESTIFY

Herbert Knox Smith, Commissioner
of Corporations, Acting on the At-
torney General's Interpretation of
the Law, Declines to Give Informa-
tion in His Possession Without the
President's Authority.

Washington, July 21.—The United
States Steel corporation, in obtaining
the Tennessee Coal and Iron company
and its Southern ore lands, "cinched"
its monopoly of the ores of the Ameri-
can continent and tied up available
fields for independent concerns, de-
clared Chairman Stanley of the house
steel trust investigating committee at
the hearing.

Mr. Stanley made the surprising ad-
mission that he had discovered from
his own investigation that the United
States Steel corporation has no mo-
nopoly of coking coal, but, addressing
his remarks particularly to Richard
A. Linbry, counsel for the steel cor-
poration, he said that if he could say
the same of the ore and transportation
facilities controlled by the trust he
would frankly do so.

The committee ineffectually sought
light from Herbert Knox Smith, com-
missioner of corporations, whose bu-
reau has been investigating the steel
corporation since 1906 and has made
public only a part of its report. The
commissioner, standing on the attor-
ney general's interpretation of the law
that no information could be made
public without the president's authori-
ty, flatly refused to give the commit-
tee facts contained in a report not yet
completed, relating particularly to
cost sheets furnished by the steel cor-
poration. He agreed that when the
report is ready he would urge the
president to make it public as soon
as possible.

Reads Judge Gary's Speech.

Chairman Stanley read a speech of
Judge Elbert H. Gary, chairman of the
board of directors of the steel cor-
poration, made to the board at a meet-
ing in 1906 relating to the govern-
ment's investigation. In this Mr. Gary
said:

"Our finance committee has been in
close touch with this matter all the
time. We have been in frequent and
almost immediate touch with Mr. Gar-
field, or more or less with the pres-
ident himself in regard to these mat-
ters. Up to date they have made no
complaint of us whatever, but we do
not know any better than you do what
may be the future. We are trying to
be frank and accommodating to the
department and we suppose we have
an understanding that we will not be
unnecessarily injured and that we will

PIANO SELECTIONS Rendered By Miss Hazel Treglawny

Mrs. Amelia Johnson, of Pine River, has been visiting Mr. and Mrs. Herman Hill, of 1324 Norwood St.

Gutter, sheet metal work and general repairing, at D. M. Clark & Co's.

Rev. Gust Peterson, of the Swedish Methodist church, went to Little Falls today where he will hold services on Sunday.

Underwear, undershirts, corsets and neckwear at a great reduction at Mrs. Pearce's closing out sale. 38t3

Mrs. N. P. Osgood, the guests of Mr. and Mrs. F. S. Parker, returned today to her home in Fargo, N. D.

When wanting any cement work done see Everett & Hitch for estimates. 39t6

Charles Osterlund, the Deerwood and Cuyuna druggist, was in the city today attending to business matters.

Mrs. Gus Johnson, of Loerch, was in the city between trains today shopping.

Have you seen the window display and bargains at Johnson's Pharmacy, this week. 37t6

The Ladies' Aid society of the Swedish Lutheran church gives an ice cream social on the church lawn this evening.

DR. BRUNS will be at Hotel Ransord July 24 and 25. Headache caused from eyestrain cured with glasses. Eyes examined free. 39t3

Attorney C. A. Russell went to Minneapolis this afternoon to meet his wife and child who are on their way to Brainerd.

Better take a look at the window display and bargains at Johnson's Pharmacy this week.

Attorney A. H. Vernon, of Little Falls, was in the city today on his way home from the state bar association meeting at Duluth.

"Salvator," natural process Malt beer, Jacob Schmidt Brewing Co., in pints, brown bottles. Coates Liquor Co. Telephone 164. 294-1mo

Mrs. Mina Taure and daughter have been the guests of Mr. and Mrs. Herman Hill. They returned home to New York Mills Tuesday.

Hair goods, hair nets, hair ornaments at a great reduction at Mrs. Pearce's sale. 38t3

Hon. C. B. Buckman, deputy United States marshal, returned this noon from Bemidji and left in the afternoon for his home in Little Falls.

Bargain week at Johnson's Pharmacy. See the window display. 37t6

The entire board of county commissioners and County Auditor Smart went to Cuyuna this afternoon to visit the Rogers, Brown Ore Co. Kennedy mine. 38t3

Ladies, if your hat got spoiled the 4th, bring it to Mrs. J. K. Pearce and get it remodeled, both flowers and trimming at half price. 38t3

The Dorcas society of the Swedish Mission church will meet this evening at the home of Frank Anderson, 1115 Pine St. S. E. Everybody welcome.

Children's bonnets and hats, baby bonnets and caps, at half price at Mrs. Pearce's closing out sale. 38t3

Mr. and Mrs. A. G. Keen and Miss Maude E. Mandery returned today from Aitkin. They enjoyed the novelty of a trip up the Mississippi in a steam boat to Aitkin.

Frank Tomlinson and C. Bunker, of Crow Wing, have formed a partnership and are operating a saloon known as the Rex saloon in the Rex hotel. They have been successful from the start.

Ladies and children can get a summer hat at half price at Mrs. J. K. Pearce's closing out sale. 38t3

Mal. D. Clark has received notice that he passed the state bar law examination with the highest average in a class of 28. His percentage was 86 and his friends are congratulating him on his success.

Mrs. William Barron went to Dubuque, Iowa, this afternoon to visit her sisters and other relatives. This is Mrs. Barron's first visit in 21 years. She has many friends near Key West a suburb of Dubuque.

Mrs. Pearce's closing out sale—30c ribbon 20c per yard, 25c ribbon 15c per yard. Now is the time to buy hair ribbon. 38t3

William Chamberlain, representing the Commercial Union Palatine Insurance Co. and George Harch, of the North British and Mercantile Insurance Co., were in Brainerd Thursday calling on their local agents.

Schmidt's bottle beer, famous for quality. Order a case. Telephone 164. John Coates Liquor Co. 208-11

Mr. Wertheimer, who is conducting the big fountain pen sale at Dunn's drug store, is more than satisfied with the results of the sale held in Brainerd. We would advise reading the advertisement of same on last page of this issue.

A new baseball nine to be called the Edson baseball team has been formed with E. A. Wright as manager. They want games with 15 year old teams. Ray Purdy is center field, George Day left fielder, Caleb Tree right field, William Bender, third base, Richard Bush short stop, Hauer Sheffo second base, Lester Hitt first base, Peter Peterson and S. Long pitchers, Richard Whitford catcher.

Postmaster Russell, at Merrifield, has just completed his summer hotel at Merrifield, which has been named "Seabloom," and is ready to accommodate summer guests. The accommodations are the best and prices are reasonable. Abble boatng facilities. 39t6

Schlange & Coleman have placed on the market this week their new brand of cigars called the "Schlange Clear Havana." Of 3,000 made at the start all except 300 have been sold and the cigar is therefore meeting with considerable success. On Tuesday Mrs. William Schlange will tour the Cuyuna range towns in the interest of the new brand and other cigars the firm is making.

Anything you want in the sporting goods line you can get it at King's. Look at his fishing tackle. All the latest hooks at King's, Iron Exchange. 12t1

W. S. Hewett, a prominent bridge contractor, was in the city today examining the plans for the construction of the Mississippi river bridge to be built near the dam. Associated with Mr. Hewett is Arthur L. Hewett, of Minneapolis. It is contemplated that the structure will be about 70 feet above the water line. Arrangements may be made that the M. & I. tracks shall be depressed and the bridge go over them and the Northwest Paper Co. has been written to regarding the matter.

Closing out sale of summer goods, ladies hats, childrens hats, flowers and trimmings, at Mrs. J. K. Pearce's. 38t3

Kidney Diseases are Curable under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it. For sale by all druggists. mwf

FIND ABANDONED AUTOMOBILE

Special by Phone to Dispatch:—Gilbert Lake, July 21.—John Ahrens is reported to have heard a noise last night on the road near his place on Ahrens hill and on investigating early in the morning he found an abandoned automobile near the gate at the roadside, which may belong to the train robbers of the North Coast Limited.

Within the auto was a curious looking can. When Mr. Ahrens left about six in the morning no one had claimed the automobile.

Later he heard of the train robbery near Buffalo, N. D., and thought it might have been the machine abandoned by the four robbers in their flight. He notified the police who are now investigating the matter.

Special Agent E. J. Williams, of the Northern Pacific railway, covered the territory north of Brainerd at Hubert and other stations searching the brush and other places. When he left for Superior this afternoon he was informed of this find as he boarded the train but made no comment about the matter.

FIND ABANDONED AUTOMOBILE

Special by Phone to Dispatch:—Gilbert Lake, July 21.—John Ahrens is reported to have heard a noise last night on the road near his place on Ahrens hill and on investigating early in the morning he found an abandoned automobile near the gate at the roadside, which may belong to the train robbers of the North Coast Limited.

Within the auto was a curious looking can. When Mr. Ahrens left about six in the morning no one had claimed the automobile.

Later he heard of the train robbery near Buffalo, N. D., and thought it might have been the machine abandoned by the four robbers in their flight. He notified the police who are now investigating the matter.

Special Agent E. J. Williams, of the Northern Pacific railway, covered the territory north of Brainerd at Hubert and other stations searching the brush and other places. When he left for Superior this afternoon he was informed of this find as he boarded the train but made no comment about the matter.

BETTER LIGHT IS PROMISED

Toltz Co. Gets a New Chief Engineer
S. G. Page, to Take Charge of the Plant

E. STANTON IS IN THE CITY

He Treasurer of the Toltz Co. is Looking Over the Plant Suggesting Improvements

The Toltz Co. has engaged a new chief engineer, S. G. Page, and with this man in charge better and more continuous service is promised. Mr. Page is an experienced engineer and has run plants of this style.

"We have had trouble in keeping the plant running," said R. E. Stanton, of St. Paul, the treasurer of the Toltz Co. who is himself an expert mechanical engineer. "We get good engineers and use them to handling gas tanks and machinery and they quit because they prefer Minneapolis to a small town. The force we have at present we are assured will stay."

"On Sundays, as a rule, the machinery is given a rest in order to permit us to make repairs. This occurs from about 8:30 in the morning to four o'clock in the afternoon," Mr. Stanton will remain at the plant several days studying conditions and suggesting possible improvements.

On Thursday evening, pay day night, the company really excelled itself and gave continuous service and a good clear light. No complaints were heard in the city that evening and if the company does as good as this every night things will be generally satisfactory.

Special Notice

A large electric fan was installed at Walker's hall, and this hall is now considered to be the best hall in the city for the reasons that it has the best floor, is the best lighted and now also the coolest hall in the city. It is especially equipped for suppers, dances, social gathering, etc. For rent at \$5.00 only. Apply at A. P. Nelson, photographer, Cor. 6th and Laurel streets.

REST AND HEALTH TO MOTHER AND CHILD.

Mrs. Winslow's SOOTHING SYRUP has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES the CHILD, SOFTENS the GUMS, ALWAYS all PAIN; CURES WIND COLIC, and is the best remedy for DIARRHOEA. It is absolutely harmless. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

TWO GAMES WITH AKELEY

Sunday Afternoon and Monday Evening Games Arranged for at the Koering Grounds

Two games have been arranged for with the fast Akeley team by the managers of the Brainerd city team for Sunday and Monday, July 23 and 24. The Sunday game will be called at three o'clock in the afternoon. The Monday game is scheduled for 6:15 P. M. sharp.

Akeley has a reputation as a fast, snappy ball team. They have played Long Prairie, Cass Lake and other teams and the visitor at the coming games is assured of getting his money's worth of enjoyment. The fans will be out in full force and the Dispatch is going to print the picture of the Brainerd city team in Saturday's daily and that ought to help some to land a victory.

NO MORE LICENSES BY CO. COMMR.

County Board, During Balance of the Term, Will Grant No More Saloon Licenses

IT AFFECTS TWO RENEWALS

Shuts Off Applicants During Life of Present Board Until End of the Term, Jan. 1913

No more saloon licenses will be granted by the present board of county commissioners during the life of their present terms, that is the term ending January, 1913.

This momentous resolution adopted at a recent adjourned meeting shuts off all new applicants and prevents any renewals.

Julie Jamieson, whose saloon is situated near Crosby and Ironton, is affected by the order and as his license expires on October 6, 1911, it cannot be renewed.

Gus Raymond, operating a saloon at Ft. Ripley, is also touched by the order and will not be able to renew when his license expires on March 15, 1912.

The applicants at Barrows will have to cease the agitation for and against licenses and none will be issued to any claimant.

The proposed saloon rumored to be set on the outskirts of Ironton will have to be abandoned.

It will thus be seen that the small three line resolution adopted by the board is of most far reaching results.

BUSY BARROW'S BUILDING BOOM

Five Residences About Completed and Five Store Buildings Under Course of Construction

SHAFT BEING SUNK AT MINE

Dr. R. A. Beise is Appointed Surgeon for the M. A. Hanna Co. Barrows Mine

Barrows, Minn., July 21.—Barrows is enjoying a building boom and a visitor there will see five residences of substantial character just completed and five store buildings under course of construction.

Six blocks of cement sidewalk have been laid and the streets have been graded, making this portion of the town present a very good appearance.

Dr. R. A. Beise, of Brainerd, has been appointed surgeon of the M. A. Hanna & Co. Barrows mine and on Thursday was called to attend the case of a workman who had smashed his finger.

The concrete foundation has been finished for the large smoke stack and the foundations are in for the others. A small oil shaft is being sunk and has reached a depth, it is said, of about 40 feet.

R. K. Whiteley, of Brainerd, was surveying near the town this week.

John Gile, of Brainerd, is erecting a frame store building on Division street 25 by 70 feet in size. E. H. Husemann, of Brainerd, is the contractor.

The framework for the A. Quackebush store is up and in place. This store is also situated on Division street.

Fred Klasey, of Crow Wing station, will start a butcher shop in Barrows.

Arthur Anderson left Brainerd Wednesday for Barrows where he will finish his numerous plastering contracts. Mr. Anderson is a young man who has made good on all the work entrusted to him and has a reputation for clean, first class plastering and mason work.

Hanna & Co are now said to have a force of 35 men at work at the mine.

TRADES & LABOR ELECTION

The Assembly Has its Semi-Annual Election of Officers and Makes Labor Day Plans

At the semi-annual election of the Trades & Labor assembly the following officers were elected: President—J. W. Holmes. Vice President—J. J. Christenson. Financial Secretary and Treasurer—P. T. Brown. Recording and Corresponding Secretary—Joseph Gabion. Guardian—Anton Link. Trustees—M. Woodley, George Rappel and Rev. W. J. Lowrie.

A. A. Weidemann was appointed chairman of a committee on arrangements for a Labor Day program. Six are on this committee who in turn will appoint their sub-committees. Labor Day has always been observed in Brainerd and this year's program will no doubt be up to the high standard set by former years.

CROPS LOOK GOOD IN COUNTY

Crow Wing County is Assured of a Bumper Crop for This Season Excelling Past

CONDITIONS ALMOST IDEAL

Corn as Far Advanced as in Southern Part of State—Rye and Potatoes Excelling

Crops in Crow Wing county are looking the best they have within any period of the last ten years. Rain and weather conditions have been almost ideal and the county is assured of a bumper crop.

"Corn in Crow Wing county is as far advanced as any in the southern part of the state," said J. H. Krekelberg, who has been in both sections of the country. "You couldn't ask for nicer corn than we have around here. It beats anything in Iowa or Illinois." This is quite a little praise coming from a man whose home was in Iowa where corn is supposed to be raised of such quality that nothing elsewhere in the United States touches it.

Corn in the vicinity of St. Cloud as seen from the Northern Pacific railway has suffered from extreme heat and in some places wind storms have thrown dirt over the fields. Nothing like this exists in Crow

Wing county. As a sample of excellent corn is the corn field near Gull lake and any land buyer or home seeker who wants to see fine corn should take a look at it. While parts of Missouri, Indiana, Illinois and North Dakota have been baked like a forgotten cake in an oven Crow Wing county has come out unscathed.

People of other states are inspecting Minnesota as they have never done before. Instead of making a wild jump across the state of Canada they are halting at the threshold of this state and coming to Crow Wing county and examining into things themselves. At a restaurant table in this city the other day were seated four men, all looking for land. One was from Missouri, one from Kansas and the remaining two from Iowa. The Missouri man had sold his big farm for \$150 per acre and was leisurely traveling about Minnesota looking for a good place to buy a farm.

Said a prominent mining man of the Cuyuna range: "It's all right to boost the mining industry, but the real backbone of this county in the end is agriculture. The Dispatch should do all it can to write up the good crops we are bound to have this year. We need more farmers and less vacant land in this county. The increased market which will be opened for farm produce at Duluth, Superior and all northern Minnesota warrants the attraction of a large number of good farmers. All of this is a cash market. The next five years will see changes which will open the eyes of people of today."

Oats on sandy soil near Barrows stands three and one-half feet high and is in most gratifying condition. Oats, in fact, are good all over the county. Wheat west of town should average at least from 30 to 35 bushels to the acre. The crop in general will be good and much better than other years. In some isolated sections rust is reported but in general no apprehension is manifested regarding this plague.

Rye has been harvested and the farmers express themselves as well pleased with the crop. Potatoes are growing in abundance and the first marketed have sold as high as \$1.50 per bushel.

They can be grown in any section of Crow Wing county. Thomas Beare, of this city, has as pretty a garden spot as one would wish to see, located near the Mississippi river.

BETTER LIGHT IS PROMISED

Toltz Co. Gets a New Chief Engineer
S. G. Page, to Take Charge of the Plant

E. STANTON IS IN THE CITY

he Treasurer of the Toltz Co. is Looking Over the Plant Suggesting Improvements

The Toltz Co. has engaged a new chief engineer, S. G. Page, and with his man in charge better and more continuous service is promised. Mr. Page is an experienced engineer and has run plants of this style.

"We have had trouble in keeping the plant running," said R. E. Stanton, of St. Paul, the treasurer of the Toltz Co. who is himself an expert mechanical engineer. "We get good engineers and are used to handling gas tanks and machinery and they quit because they prefer Minneapolis to a small town. The force we have at present we are assured will stay."

"On Sundays, as a rule, the machinery is given a rest in order to permit us to make repairs. This occurs from about 8:30 in the morning to four o'clock in the afternoon," Mr. Stanton will remain at the plant several days studying conditions and suggesting possible improvements.

On Thursday evening, pay day night, the company really excelled itself and gave continuous service and a good clear light. No complaints were heard in the city that evening and if the company does as good as this every night things will be generally satisfactory.

Special Notice

A large electric fan was installed at Walker's hall, and this hall is now considered to be the best hall in the city for the reasons that it has the best floor, is the best lighted and now also the coolest hall in the city. It is especially equipped for suppers, dances, social gathering, etc. For rent at \$5.00 only. Apply at A. P. Nelson, photographer, Cor. 6th and Laurel streets. 4111

BEST AND HEALTH TO MOTHER AND CHILD.

Mrs. Winslow's Soothing Syrup has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEETHING, WITH PERFECT SUCCESS. IT SOOTHES the CHILD, SOFTENS the GUMS, ALLAYS all PAIN, CURES WIND COLIC, and is the best remedy for DIARRHOEA. It is absolutely harmless. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take no other kind. Twenty-five cents a bottle.

TWO GAMES WITH AKELEY

Sunday Afternoon and Monday Evening Games Arranged for at the Koering Grounds

Two games have been arranged for with the fast Akeley team by the managers of the Brainerd city team for Sunday and Monday, July 23 and 24. The Sunday game will be called at three o'clock in the afternoon. The Monday game is scheduled for 6:15 P. M. sharp.

Akeley has a reputation as a fast, snappy ball team. They have played Long Prairie, Cass Lake and other teams and the visitor at the coming games is assured of getting his money's worth of enjoyment. The fans will be out in full force and the Dispatch is going to print the picture of the Brainerd city team in Saturday's daily and that ought to help some to land a victory.

NO MORE LICENSES BY CO. COMMRS.

County Board, During Balance of the Term, Will Grant No More Saloon Licenses

IT AFFECTS TWO RENEWALS

Shuts Off Applicants During Life of Present Board Until End of the Term, Jan. 1913

No more saloon licenses will be granted by the present board of county commissioners during the life of their present terms, that is the term ending January, 1913.

This momentous resolution adopted at a recent adjourned meeting shuts off all new applicants and prevents any renewals.

Jule Jamieson, whose saloon is situated near Crosby and Ironton, is affected by the order and as his license expires on October 6, 1911, it cannot be renewed.

Gus Raymond, operating a saloon at Ft. Ripley, is also touched by the order and will not be able to renew when his license expires on March 15, 1912.

The applicants at Barrows will have to cease the agitation for and against licenses and none will be issued to any claimant.

The proposed saloon rumored to be set on the outskirts of Ironton will have to be abandoned.

It will thus be seen that the small three line resolution adopted by the board is of most far reaching results.

BUSY BARROW'S BUILDING BOOM

Five Residences About Completed and Five Store Buildings Under Course of Construction

SHAFT BEING SUNK AT MINE

Dr. R. A. Beise is Appointed Surgeon for the M. A. Hanna Co. Barrows Mine

Barrows, Minn., July 21.—Barrows is enjoying a building boom and a visitor there will see five residences of substantial character just completed and five store buildings under course of construction.

Six blocks of cement sidewalk have been laid and the streets have been graded, making this portion of the town present a very good appearance.

Dr. R. A. Beise, of Brainerd, has been appointed surgeon of the M. A. Hanna & Co. Barrows mine and on Thursday was called to attend the case of a workman who had smashed his finger.

The concrete foundation has been finished for the large smoke stack and the foundations are in for the others. A small or trial shaft is being sunk and has reached a depth, it is said, of about 40 feet.

K. K. Whiteley, of Brainerd, was surveying near the town this week. John Gile, of Brainerd, is erecting a frame store building on Division street 25 by 70 feet in size. E. H. Husemann, of Brainerd, is the contractor.

The framework for the A. Quackenbush store is up and in place. This store is also situated on Division street.

Fred Klasey, of Crow Wing county, will start a butcher shop in Barrows.

Arthur Anderson left Brainerd Wednesday for Barrows where he will finish his numerous plastering contracts. Mr. Anderson is a young man who has made good on all the work entrusted to him and has a reputation for clean, first class plastering and mason work.

Hanna & Co. are now said to have a force of 35 men at work at the mine.

TRADES & LABOR ELECTION

The Assembly Has its Semi-Annual Election of Officers and Makes Labor Day Plans

At the semi-annual election of the Trades & Labor assembly the following officers were elected:

President—J. W. Holmes.
Vice President—J. J. Christenson.
Financial Secretary and Treasurer—P. T. Brown.
Recording and Corresponding Secretary—Joseph Gablous.
Guardian—Anton Link.
Trustees—M. Woodley, George Rappel and Rev. W. J. Lowrie.

A. A. Weidemann was appointed chairman of a committee on arrangements for a Labor Day program. Six are on this committee who in turn will appoint their sub-committees. Labor Day has always been observed in Brainerd and this year's program will no doubt be up to the high standard set by former years.

CROPS LOOK GOOD IN COUNTY

Crow Wing County is Assured of a Bumper Crop for This Season Excelling Past

CONDITIONS ALMOST IDEAL

Corn as Far Advanced as in Southern Part of State—Rye and Potatoes Excellent

Crops in Crow Wing county are looking the best they have within any period of the last ten years. Rain and weather conditions have been almost ideal and the county is assured of a bumper crop.

"Corn in Crow Wing county is as far advanced as any in the southern part of the state," said J. H. Krekelberg, who has been in both sections of the county. "You couldn't ask for nicer corn than we have around here. It beats anything in Iowa or Illinois." This is quite a little praise coming from a man whose home was in Iowa where corn is supposed to be raised of such quality that nothing elsewhere in the United States touches it.

Corn in the vicinity of St. Cloud as seen from the Northern Pacific railway has suffered from extreme heat and in some places wind storms have thrown dirt over the fields. Nothing like this exists in Crow Wing county.

AN ORDINANCE
to provide water mains and other water works as a means of water supply for the Village of Crosby, and as a measure for the prevention and extinguishment of fires therein, and to regulate the use thereof.
The Village Council of the Village of Crosby do ordain as follows:
SECTION 1.
That a system of water mains, hydrants, and other water works, and necessary equipment, pumps and power, as a means of water supply for villages purposes and the inhabitants thereof, and as a measure for the prevention and extinguishment of fires in said village, be and the same shall be provided in the manner following, that is to say:
That said Village of Crosby shall and will let by contract and therein and hereunder provide for the purpose of supplying water to the Village of Crosby and elsewhere and the inhabitants thereof, for the term of twenty (20) years, to lay, construct, own, acquire, operate and maintain a system of water mains, stand pipes, conduits, and feeders, and the necessary connections, plants, pumps, attachments, fixtures, equipment and appurtenances, in, through, upon, under, along the streets, avenues, alleys, lanes, highways, parks and public places and other courses or water ways, for the supply of water from Serpent lake or other sources, and for the purpose of supplying, conveying, distributing and selling water to the Village of Crosby and elsewhere and the inhabitants thereof, within the territory thereof, and any territory that may hereafter during said term be annexed to, and to other villages and communities or municipal purposes and to the inhabitants thereof, and conditions hereof, undertake and agree:

(a) to lay, erect and construct, at his sole cost and expense, a plan and map, at the places, and of the sizes, kinds and quality of materials, capacity and power, and to have the same plan and map, including plans, maps and profiles, prepared by James G. Lawson, Esquire, Village of Crosby, which are now on file with the Village Clerk of said Village, and which are hereby adopted for said purposes, and to which reference is now and here made for greater particularity, and have the same completed and in readiness for operation and use within eight (8) months from the letting of said contract, and then and thereafter operate and maintain the same and furnish and supply water to said Village and the inhabitants thereof for and during the term aforesaid;

(b) to lease and lay out said Village fifteen (15) public fire hydrants and such additional hydrants as shall be installed upon the territory of said Village as herein provided, of the size and character herein provided, for and during the term aforesaid;

(c) and as and for his compensation and revenue, and the consideration to, have and receive, and be entitled to have, charge, collect and receive.

1. from the Village of Crosby such a sum per annum as rental, payable quarterly yearly, in the first days of January, April, July and October in each and every year, for the water furnished in the quarter preceding the day on which said payment shall be made, out of the general revenue funds of said Village, for each and every additional fire hydrant (15) fire hydrants specified in said plans and specifications to be constructed and located, and other blue prints attached to and being part of the contract, and for each and every additional fire hydrant as said Village shall or may from time to time in numbers of not less than two (2) to be installed and located, and the location of which shall be designated in writing, as shall be fixed therefor by the bid of the successful bidder and accepted by said Village pursuant hereto; and

2. such rates for water furnished to the inhabitants of said Village for private use, which has passed the meter of the Village of Crosby, and which are required to be paid in advance, consistent with all lawful rules and regulations that the contractor may make concerning water meters, and the installation thereof by consumers, as shall be fixed for the following specified quantities of water: for the first five thousand (5000) cubic feet, and for the next five thousand (5000) cubic feet, and for the next five thousand (5000) cubic feet and over, and the rate of discount that all consumers shall be entitled to have and receive for prompt payment of bills for quantity used, by the bid of the successful bidder and accepted by said Village pursuant hereto.

(d) that the successful bidder whose bid shall be accepted and to whom said contract shall be awarded by said Village shall within ten (10) days thereafter enter into a contract with said Village under the corporate seal thereof and by said successful bidder, one copy of which shall be filed with the clerk of said Village, and the other delivered to said successful bidder.

Said contract shall also provide that when the contractor shall have the plant, pipes and equipment ready for use and occupying premises on streets, avenues and alleys or other public places in which water mains or conduits are laid; and when and where the contractor shall not have laid mains or conduits, he shall lay mains on the petition for the use of water for at least four (4) applicants thereof who are occupants of buildings averaging two (2) buildings in every hundred (100) feet of main (street intersections excepted), and which occupants or owners shall and will guarantee at least

six per cent (6 per cent) interest on the cost of construction of said extension if and when the contractor shall be directed so to do by the Village Council.

Said contract shall also provide that the said contractor shall furnish and supply water and deliver the same through said fire hydrants for the purposes of prevention and extinguishment of fires.

Said contract shall also provide that said contractor shall have the right to shut off the water supply temporarily from his main pipes or any portion thereof for the purpose of making repairs or extensions to the said plant; and said contractor shall not be liable to the Village, or any consumer for damages occasioned by such temporary suspension of the supply of water; and that any said repairs or extensions shall be made with due diligence by the contractor.

Said contract shall also provide that said contractor shall within two (2) weeks after the completion of said plant test the power and capacity of said water works and the plant thereof, under the supervision of said Village, and upon the test being made and compliance with the said specifications having been shown, the Village of Crosby agrees that it will accept said works forthwith, and from the date of the completion of the said test the hydrant rentals herein stipulated for shall commence.

Said contract shall also provide that this ordinance is adopted upon the expiration of five (5) years from the date of said contract the Village of Crosby shall have the right to purchase the same, and the equipment thereof as an entirety, and the supplies on hand for the same, at a price to be determined by a Board of Appraisers consisting of three (3) disinterested persons competent and qualified to determine the same, who shall be sworn to determine the price so to be paid, one of whom shall be selected by the Village Council of said Village, one by the contractor and the third by the two (2) so chosen.

When the said three persons shall have so chosen and agreed upon the price to be paid, said Village and the said contractor shall each at their option have the right to their experts not exceeding three (3) in each party, to give testimony before said appraisers as to the value of said plant, and the said three appraisers shall proceed to determine said value and the price to be paid therefor and in so doing shall take into consideration the cost and productive value of the said water works, rights, privileges, franchises and property then owned and required by the Village of Crosby.

Said contract shall also provide that upon re-filling any excavation in any street, avenue, alley or highway, the contractor shall re-lay the pavement, and do all other necessary work, including the re-laying of the pavement, sidewalk and grounds to a condition equally as good as when disturbed; and when the contractor shall have any such excavation or hole for the purpose of laying any water pipes, or for any other purpose whatsoever, he shall be bound to keep the same open longer at any time or place than is necessary to properly execute the work thereof, and it is especially required that in all cases that where said work requires the exercise of skill, as in the relaying of pavement, the contractor shall employ skilled workmen familiar with the execution of such work.

The contractor shall at all times display and keep the necessary danger signals and proper guards around all excavations and obstructions.

Said contract shall also provide that the pressure to be maintained upon the water mains at the pumping plant by the said Village of Crosby shall be as follows: domestic pressure fifty (50) pounds per square inch; fire pressure eighty (80) pounds per square inch.

Said contract shall also provide that no person other than authorized members of the Village Fire Department shall use a hydrant or interfere with any hydrant or hydrants and that in case any person other than as aforesaid shall use any such hydrant or hydrants or interfere with the same he shall be deemed a trespasser and may be dealt with according to the laws of the State of Minnesota; and that the contractor may make and enforce as part of the conditions upon which he will supply water to consumers all lawful rules and regulations not inconsistent with law.

Said contract shall also provide that all main pipes, service pipes and connections shall be laid at such a depth so as to be protected from frost.

Said contract shall also provide that in the readjustment of any established grades on any street, avenue, alley or highway in the Village of Crosby, the Village Council shall serve notice on the contractor at least ninety (90) days before any work of readjusting any street, avenue, alley or highway is commenced, during which time the contractor shall have the privilege of re-laying all mains and pipes affected thereby to a corresponding depth.

Said contract shall also provide that should said Village of Crosby at any time be incorporated as a city, the term "Village" herein and in said contract contained shall be construed to mean "City" and the term "Village Council" to mean the "Common Council" of said city, and the word "president" to mean "mayor"; and that the provisions of this ordinance and of said contract shall inure to the benefit of and be binding upon the successors and assigns of said contractor.

SECTION III.
That the Village of Crosby will receive bids at the office of the Village Clerk of said Village of Crosby in Crow Wing County, Minnesota, until six o'clock P. M., July 25th, 1911, which will be publicly opened and read at the meeting of said Council to be held on said day at eight o'clock P. M., for the performance of the services herein specified and required, and that each bid must be accompanied by a certified check on some bank authorized to do business in the State of Minnesota for the sum of Five Hundred Dollars (\$500.00) payable to the Treasurer of said Village.

Attest:
S. O. LATTI,
Clerk of the Village of Crosby.
(Corporate Seal)
Passed and adopted July 12th, 1911.
